

AL foil duct hose machine

Specification

Dimension of main body
2,420mm(L) x 978mm(W) x 2,079mm(H)
Dimension of wire feeder
1,200mm(L) x 1,150mm(W) x 2,050mm(H)
Electric power
380V 3 phase, 50/60 Hz
Air capacity
3.75KW(5 HP)

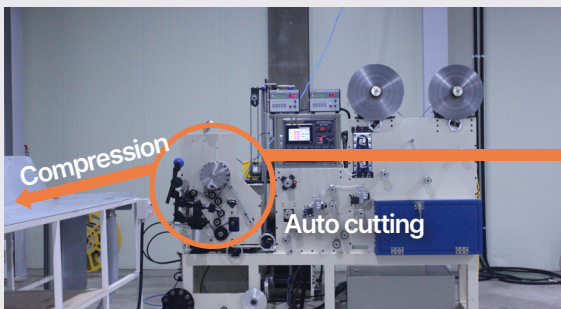

Material

1,2 Layer
AL foil / PET / MPET
3 Layer
Rubber foam / PE foam (~ 5mm) / Non-woven fabric(~ 100g)
Spring copper wire
Thickness: 0.89mm ~ 1.3mm
Glue
Components: Poly-urethane adhesive, hardener, MEK

Feature

“Auto cutting, compression and wire tension control ”

- Auto cutting and compression

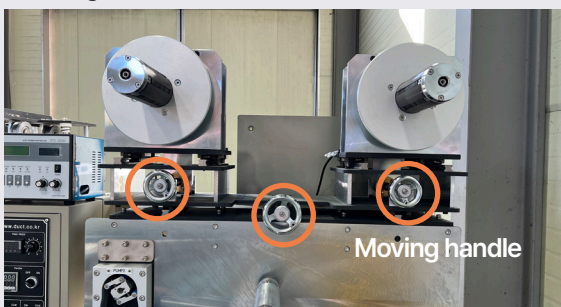

[Auto cutting device]

[Compression]

“Automatic and simple system for high-performance flexible duct production”

- Moving handle for each AL foil unwinder

Moving handle

- Auto wire tension control

- Controller
